

Company Summary

Validis is the revolutionary and industry-first financial data transmission software, that’s empowering global accountancy firms, financial institutions and commercial businesses. We connect directly to mid-tier accounting packages and transmit data direct from its source, presenting you with standardized, review-ready reports in just 3-8 minutes.

Started in the UK, Validis is aggressively pursuing the USA market. With a mixture of bright financial business heads, expert technologists and highly specialized customer support agents work together every day in our London, UK & Austin, TX based offices. We’re diverse in skills and ideas but united by the belief in what we do, and the power of our technology.
