

# Verification Workpapers

Deliver a higher quality audit

## What is Verification Workpapers?

Verification Workpapers is a unique and fully automated financial verification feature of Validis DataShare that will enable your firm to elevate the quality of its audit service.

Verification Workpapers enables audit teams to rapidly access and standardize client financials, automate the evidence collection process with 100% P&L analysis, and verify financial artefacts using AI technologies.

## The benefits of using Verification Workpapers:

“Verification Workpapers offers the single largest opportunity to increase audit quality in decades.”

- Audit Partner at a BIG4 firm
